

Liquid UI Designer Script Not Reflecting on SAPGUI Screen Issue

Purpose:

To resolve issue concerning Liquid UI Designer script not reflecting on SAP GUI Screen.

Pre-requisites:

1. Liquid UI Activation.

Refer to the below Article, to verify whether Liquid UI is Activated or not.

<https://www.guixt.com/forum/index.php/topic,437.0.html>

2. Liquid UI Designer Product Valid License.

To Request for a License or to the Check the validity Refer to the below article.

<https://www.guixt.com/forum/index.php/topic,228.0.html>

Below are the steps to follow:

Step1:

Locate guixt.sjs file

It can be found in SAP GUI Installed folder on the Local machine.

C:\Program Files\SAP\FrontEnd\SAPgui --> 32bit O.S

C:\Program Files(x86)\SAP\FrontEnd\SAPgui --> 64bit O.S

Step2:

Specify the directory path

The directory path is the path, in which the LUI Script will get saved and gets executed, make sure to specify the correct path.

Example:

If the LUI Script needs to be stored in the path "C:\\LiquidUI\\scripts";

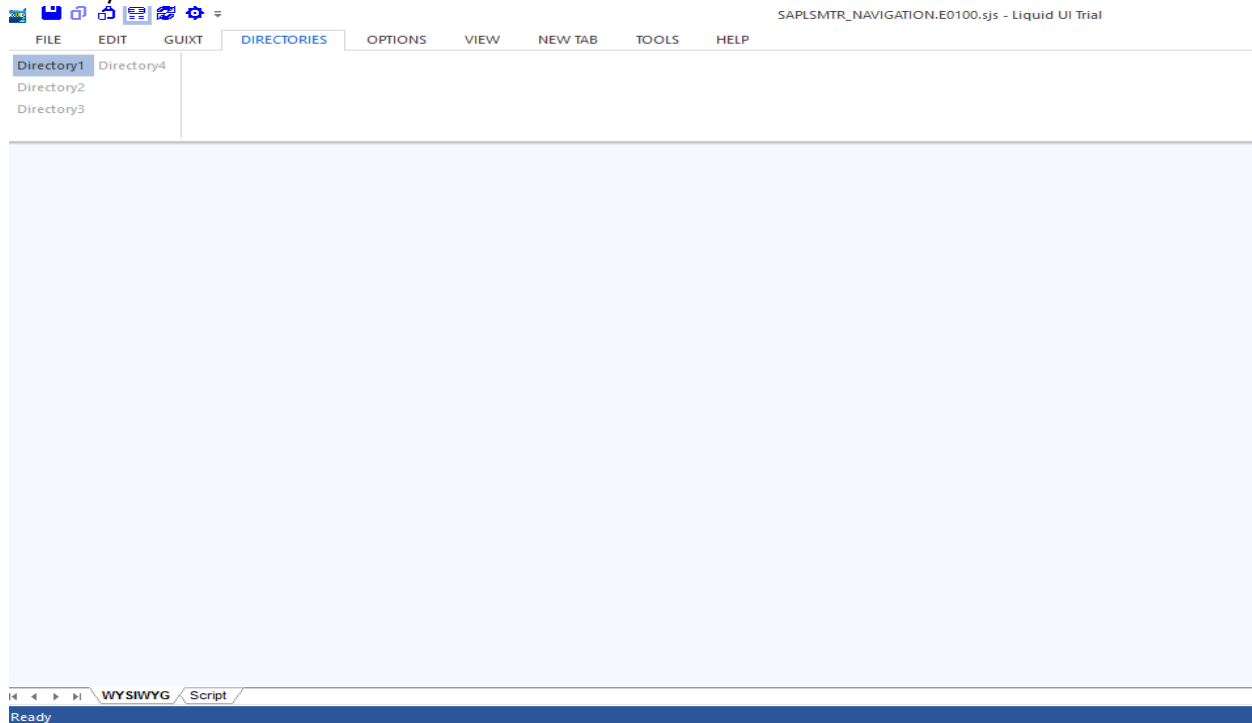

then specify as below

directory1="C:\\LiquidUI\\scripts";

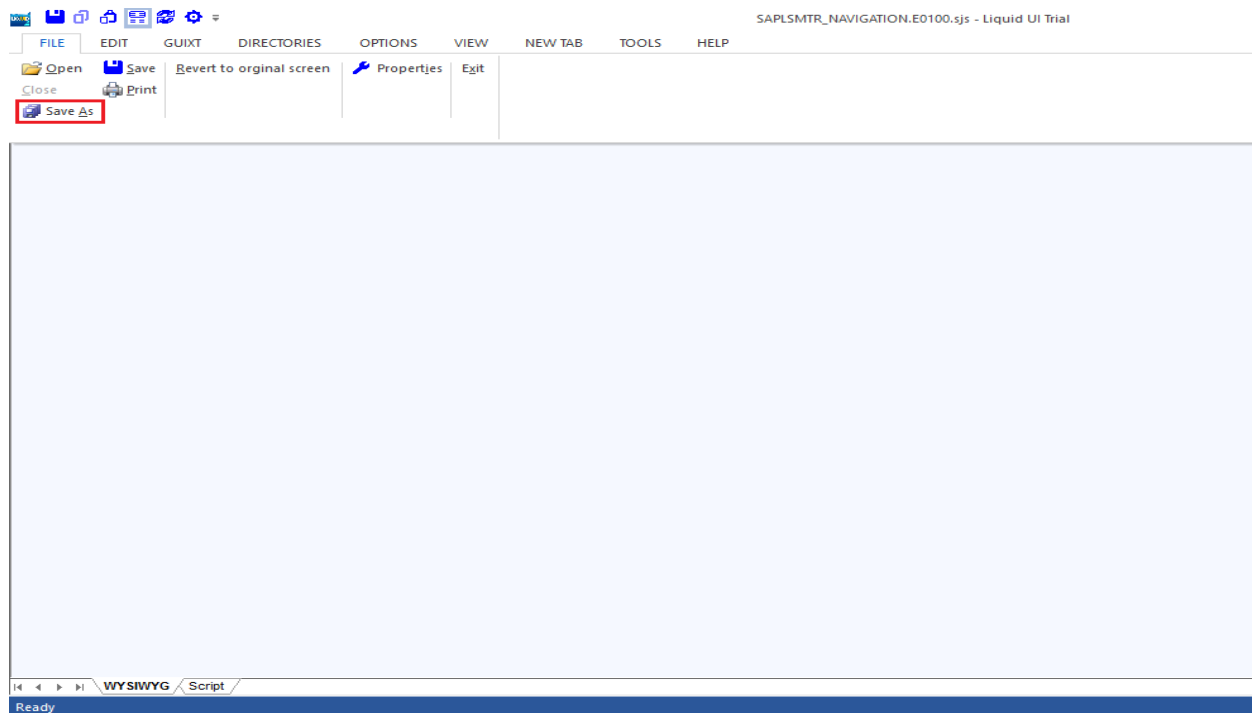

```
14  /* *****
15  ***** Switch to another guixt.sjs file
16  ***** */
17  //switchto = ["C:\\Folder\\subfolder\\guixt.sjs"];
18
19  /* *****
20  ***** DIRECTORY Path
21  ***** */
22  // directory0 = "C:\\LiquidUI\\script121";
23  directory1 = "C:\\LiquidUI\\scripts";
24  // directory2 = "C:\\LiquidUI\\testscripts";
25  // directory3 = "SAPWR:Z.LIQUIDUIWS";
26  // directory4 = "C:\\LiquidUI\\SampleSolutions";
27
28
```

Step3:

Open the Liquid UI Designer, on the Menu bar click on DIRECTORIES Pushbutton and verify whether the directory is set or not.

if it is not set then on the Menu bar click on the **File** and then click on the **Save As** button as Shown.

Specify the directory path location and select the Directory Radio button and then click on the Save Button.
