

Keep SAP Connection Screen Awake

Purpose:

To keep the SAP connection screen display awake for the opened session. Even if, there is no activity And the Display Setting's sleep time has been reached.

Steps:

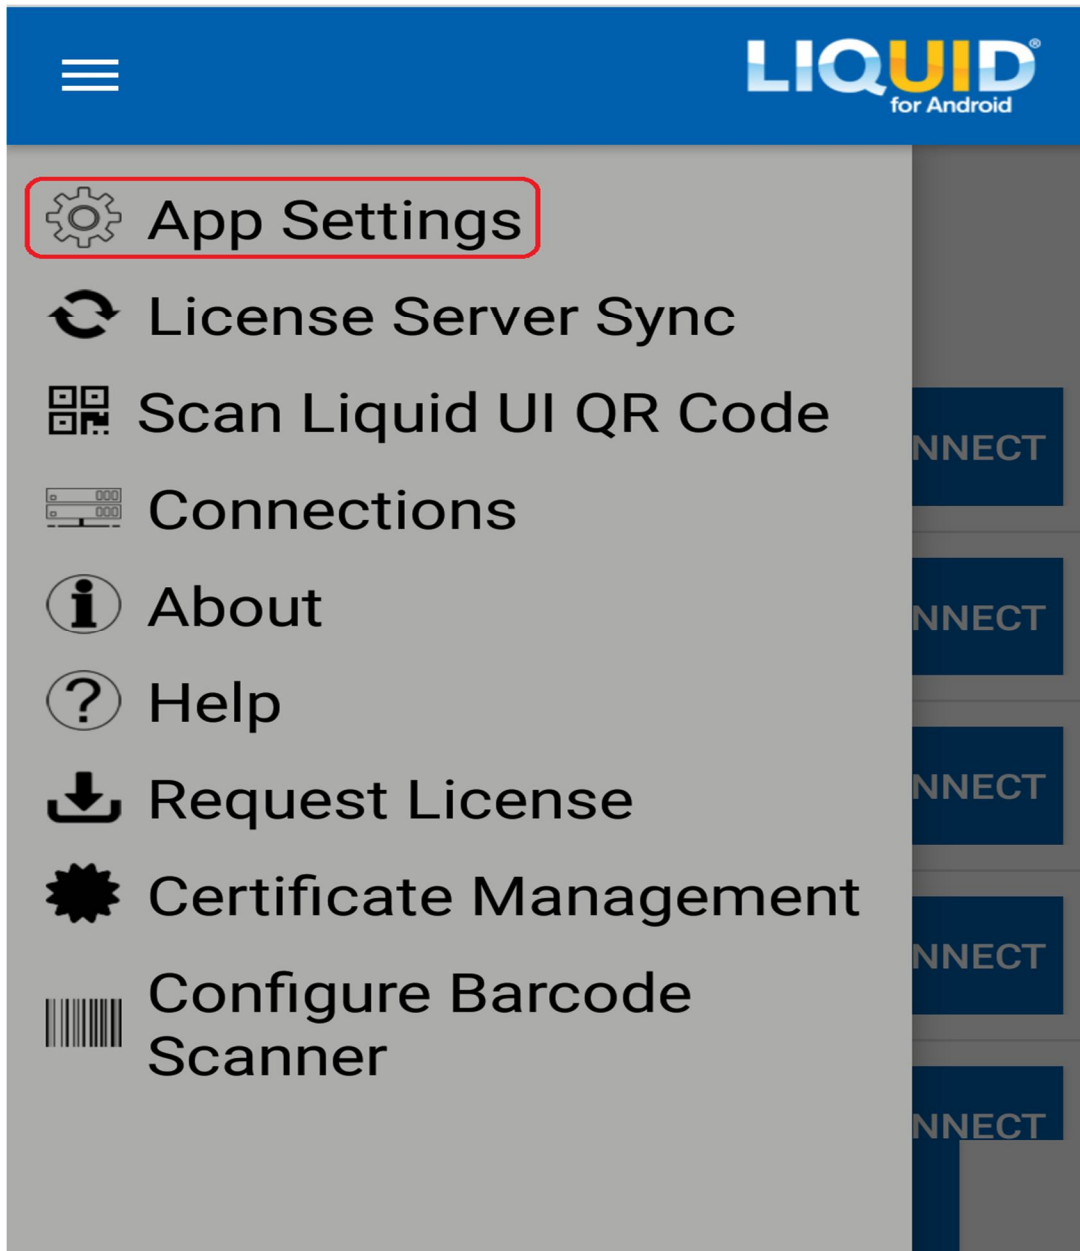

1. From the Server Connections screen, navigate to APP Settings - Symbolically three horizontal lines to the top left corner.

	Description	status	
⋮	DEMO SERVER	INACTIVE	CONNECT
⋮	DEV	INACTIVE	CONNECT
⋮	DEV-1	INACTIVE	CONNECT
⋮	Development	INACTIVE	CONNECT
⋮	Development-1	INACTIVE	CONNECT

ADD CONNECTION

2. Select the option “App Settings”.

3. Scroll down the Insider to select the option “Keep SAP Screen On”.
