

Adjusting Column Width on Liquid UI IOS

Purpose:

Liquid UI IOS allows user to adjust the column width for better view ability and to be able to read the complete data within the cells with the help of slider.

Explanation using Grid control:

Following image shows the data within the Description column on a first view as truncated. See the highlighted cells.

The data within the above cells can be better viewed by adjusting the column width using a slider control as explained below.

Step 1:

Slowly position your finger on the respective column header and hold. A slider control will appear on the screen.

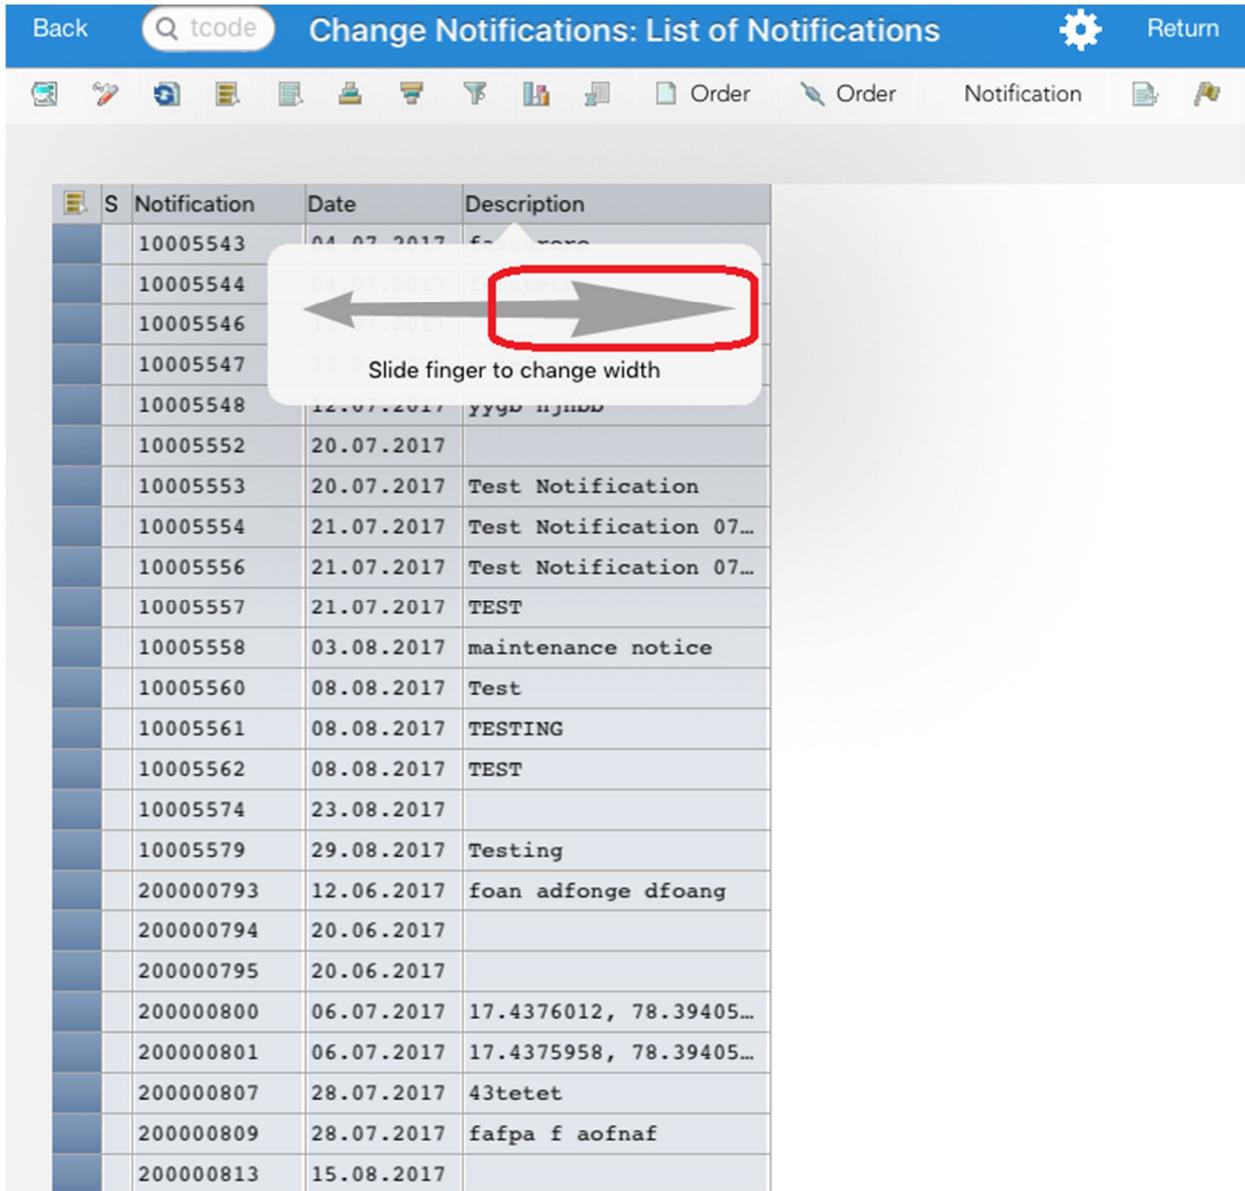

The screenshot shows a mobile application interface with a blue header bar. The header contains a 'Back' button, a search bar with 'tcode', the title 'Change Notifications: List of Notifications', a gear icon, and a 'Return' button. Below the header is a toolbar with various icons and the text 'Order', 'Order', and 'Notification'. The main content is a table with columns 'S', 'Notification', 'Date', and 'Description'. The 'Description' column header is highlighted with a red box. A white slider control is overlaid on the 'Description' header, with a double-headed arrow and the text 'Slide finger to change width'.

S	Notification	Date	Description

	200000793	12.06.2017	foan adfonge dfoang
	200000794	20.06.2017	
	200000795	20.06.2017	
	200000800	06.07.2017	17.4376012, 78.39405...
	200000801	06.07.2017	17.4375958, 78.39405...
	200000807	28.07.2017	43tetet
	200000809	28.07.2017	fafpa f aofnaf
	200000813	15.08.2017	

Step 2:

Now position your finger on the bigger arrow of the slider as highlighted and move it towards right to increase the width of the column.

The screenshot shows a mobile application interface with a blue header bar. The header contains a 'Back' button, a search bar with 'tcode', the title 'Change Notifications: List of Notifications', a settings gear icon, and a 'Return' button. Below the header is a toolbar with various icons and the text 'Order', 'Order', and 'Notification'. The main content is a table with the following columns: 'S', 'Notification', 'Date', and 'Description'. The table contains 20 rows of data. A red box highlights a slider control on the 'Description' column header, with a tooltip that says 'Slide finger to change width'.

	200000794	20.06.2017	
	200000795	20.06.2017	
	200000800	06.07.2017	17.4376012, 78.39405...
	200000801	06.07.2017	17.4375958, 78.39405...
	200000807	28.07.2017	43tetet
	200000809	28.07.2017	fafpa f aofnaf
	200000813	15.08.2017	

Result:

You will see that the “Description” column width has increased and the data within the cells which earlier looked truncated is now better viewable.
