

## Avoiding User Logon entry with Auto Logon feature on Liquid UI Android/IOS

### Purpose:

Liquid UI Android/IOS allows user to avoid making manual entry of User Logon Credentials each time while logging into the server with the help of effective Auto Logon feature.

### Step 1:

Navigate to “Edit Connection” for particular server on the server connections screen.

Step 2:

Enter the server credentials along with User name and password. Then click on button “OFF” for the option “Auto Logon”.

← **LIQUID**  
for Android

Not sure what to do **TAP FOR HELP**

Description	server
Group/Server	172.22.144.10
Instance Number	25
Client	100
SAP Router	
User Name	john
Password	••••••••
Language	
Auto Logon	<input type="button" value="OFF"/>
TLS	<input type="button" value="OFF"/>

**CONNECT TO MY SAP**

Step 3:

The Auto Logon will get enabled by turning button to “ON”. Hence click on “CONNECT TO MY SAP” to update the information.

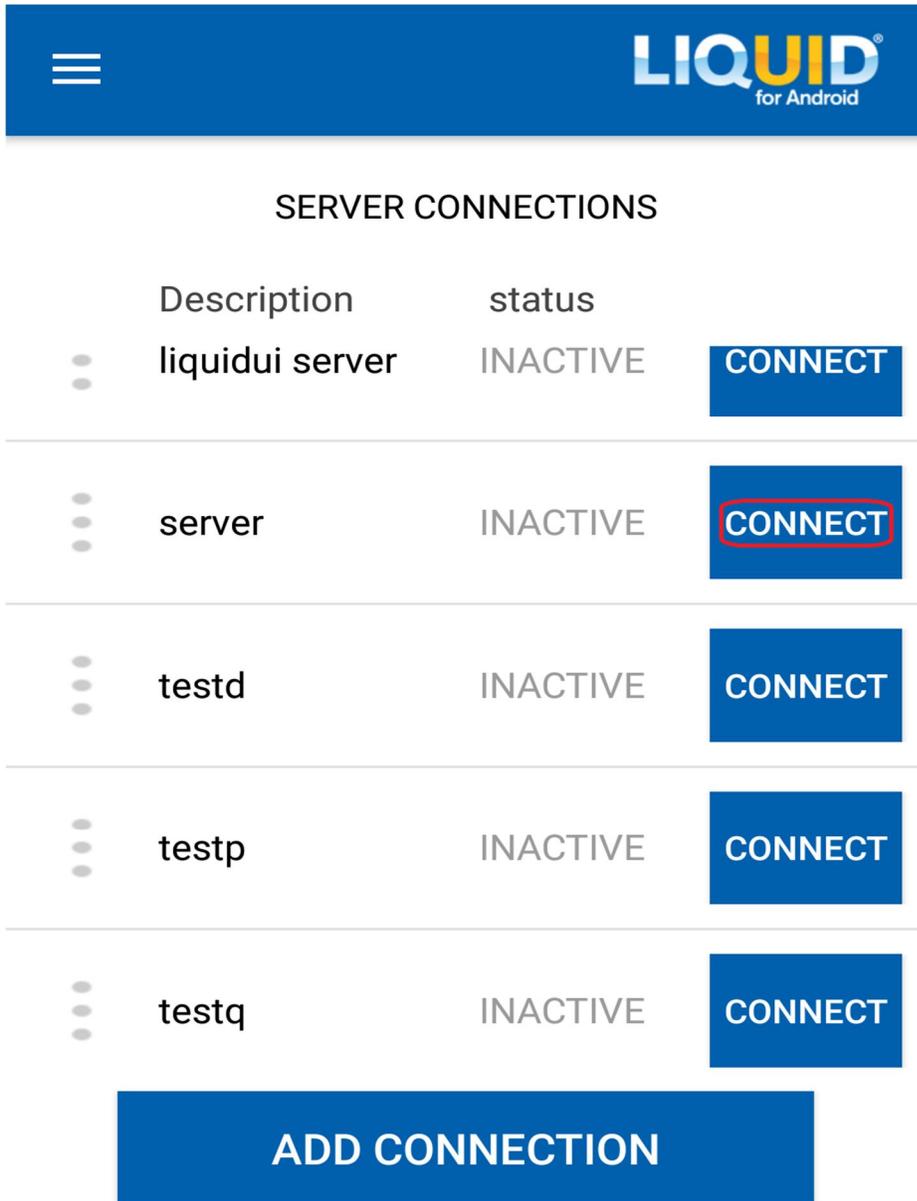

The screenshot displays the configuration interface for the LIQUID for Android application. At the top, there is a blue header with a back arrow on the left and the LIQUID for Android logo on the right. Below the header is a black bar with the text "Not sure what to do" and "TAP FOR HELP" in yellow. The main configuration area is a light gray box containing several fields:

- Description: server
- Group/Server: 172.22.144.10
- Instance Number: 25
- Client: 100
- SAP Router: (empty)
- User Name: john
- Password: (masked with 10 dots)
- Language: (empty)
- Auto Logon: ON (highlighted with a red box)
- TLS: OFF

At the bottom of the screen, there is a large blue button with the text "CONNECT TO MY SAP" in white, which is also highlighted with a red box.

Step 4:

The profile will be updated successfully. Now click on “CONNECT” for the particular server to Log IN.

The screenshot shows the LIQUID for Android app interface. At the top, there is a blue header with a hamburger menu icon on the left and the LIQUID for Android logo on the right. Below the header, the text "SERVER CONNECTIONS" is centered. The main content area displays a list of server connections. Each entry consists of a vertical ellipsis icon, a description, a status, and a "CONNECT" button. The "CONNECT" button for the "server" entry is highlighted with a red rectangle. At the bottom of the list, there is a large blue button labeled "ADD CONNECTION".

	Description	status	
⋮	liquidui server	INACTIVE	CONNECT
⋮	server	INACTIVE	CONNECT
⋮	testd	INACTIVE	CONNECT
⋮	testp	INACTIVE	CONNECT
⋮	testq	INACTIVE	CONNECT

**ADD CONNECTION**

Result:

You will be automatically redirected to SAP Easy Access Screen without the need of entering the username and password.
