

# Liquid UI: Display Custom Pop-up

---

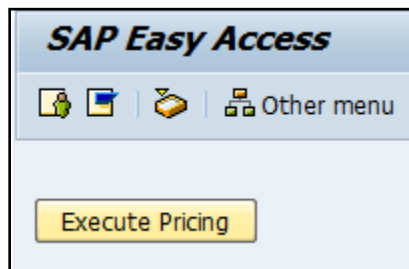

## Purpose

Display custom pop-up and wait for user interaction.

## User Interface

Log into SAP and on the SAP Easy Access Screen click on 'Execute Pricing' pushbutton.

This will bring a pop-up and user can select 'Yes' or 'No'.

## Liquid UI Code [Script]

### SAPLSMTR\_NAVIGATION.E0100.sjs –

```
SAPLSMTR_NAVIGATION.E0100.sjs x
1
2 // User Interface
3 clearscreen();
4 pushbutton([1,1], 'Execute Pricing', '/o');
5
6
7
```

### RSM04000\_ALV.E2000.sjs –

```
RSM04000_ALV.E2000.sjs x
1
2 // Function to execute VK11 when the user clicks 'Yes' on the pop-up
3 function executeVK11() {
4     onscreen 'SAPLSMTR_NAVIGATION.0100'
5         enter('/nvk11');
6
7     onscreen 'SAPMV13A.0100'
8         set('F[Condition type]', 'PR00');
9         enter();
10
11     onscreen 'SAPLV14A.0100'
12         enter();
13 }
14
15 // Pop-up screen Interface
16 clearscreen();
17 title('Decision to Proceed');
18 text([2,2], 'Do you want to create pricing conditions?');
19 text([3,2], 'Press <Yes> to continue, Press <No> to stop');
20 del('P[Generate]');
21 del('P[End Session]');
22 text('P[Continue]', '@01@Yes');
23 text('P[Cancel]', '@02@No');
24
25 onUIEvents['Enter'] = {"fcode":"/12", "process":executeVK11}
26 onUIEvents['/12'] = {"fcode":"/12"};
27
```
