

Keyboard Auto Pop-up upon cursor Autofocus on input field

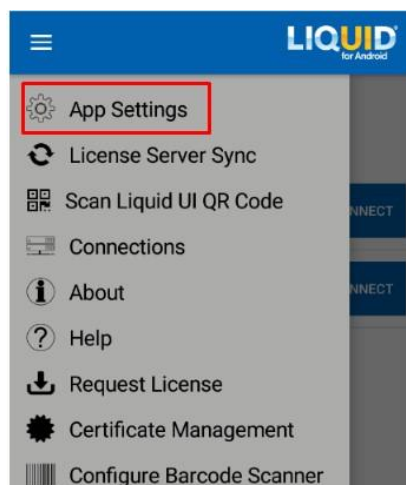

Purpose: To fast access the keyboard upon cursor Autofocus on input field.

Steps:

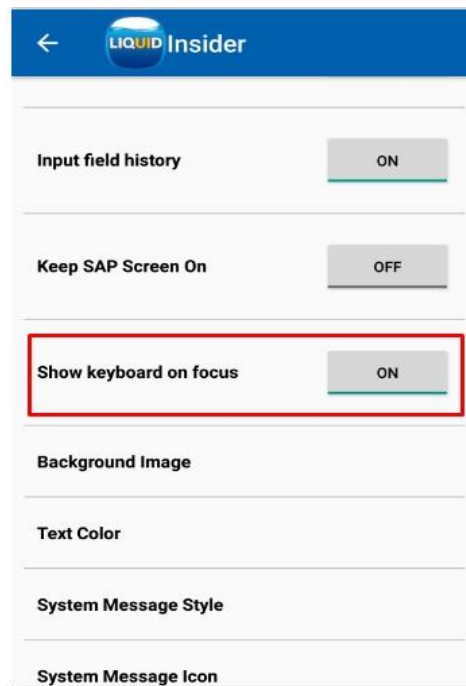

1) Open “Liquid UI” app on your device and click on the “Menu” icon at the top left corner.

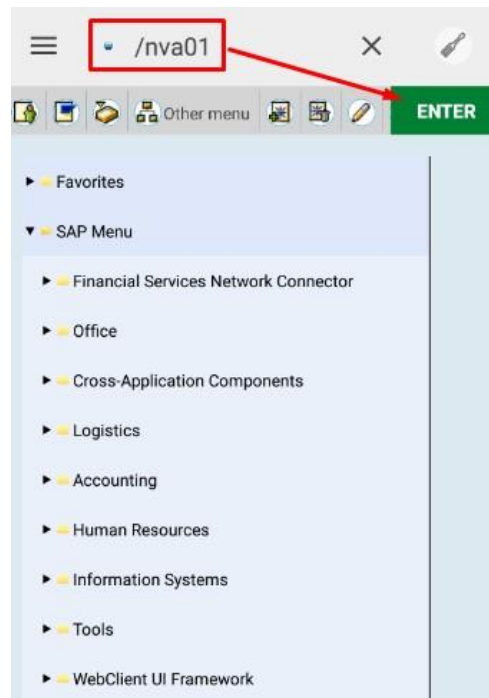

2) Click on the “App Settings”.

3) Scroll down to find “Show keyboard on focus” option and “Enable” it by clicking “ON” button.

4) Goto “VA01” transaction.

5) The “Order Type” input field is automatically focused and displays the keyboard for fast access to input the value.
