

## How to Encrypt RFC Password?

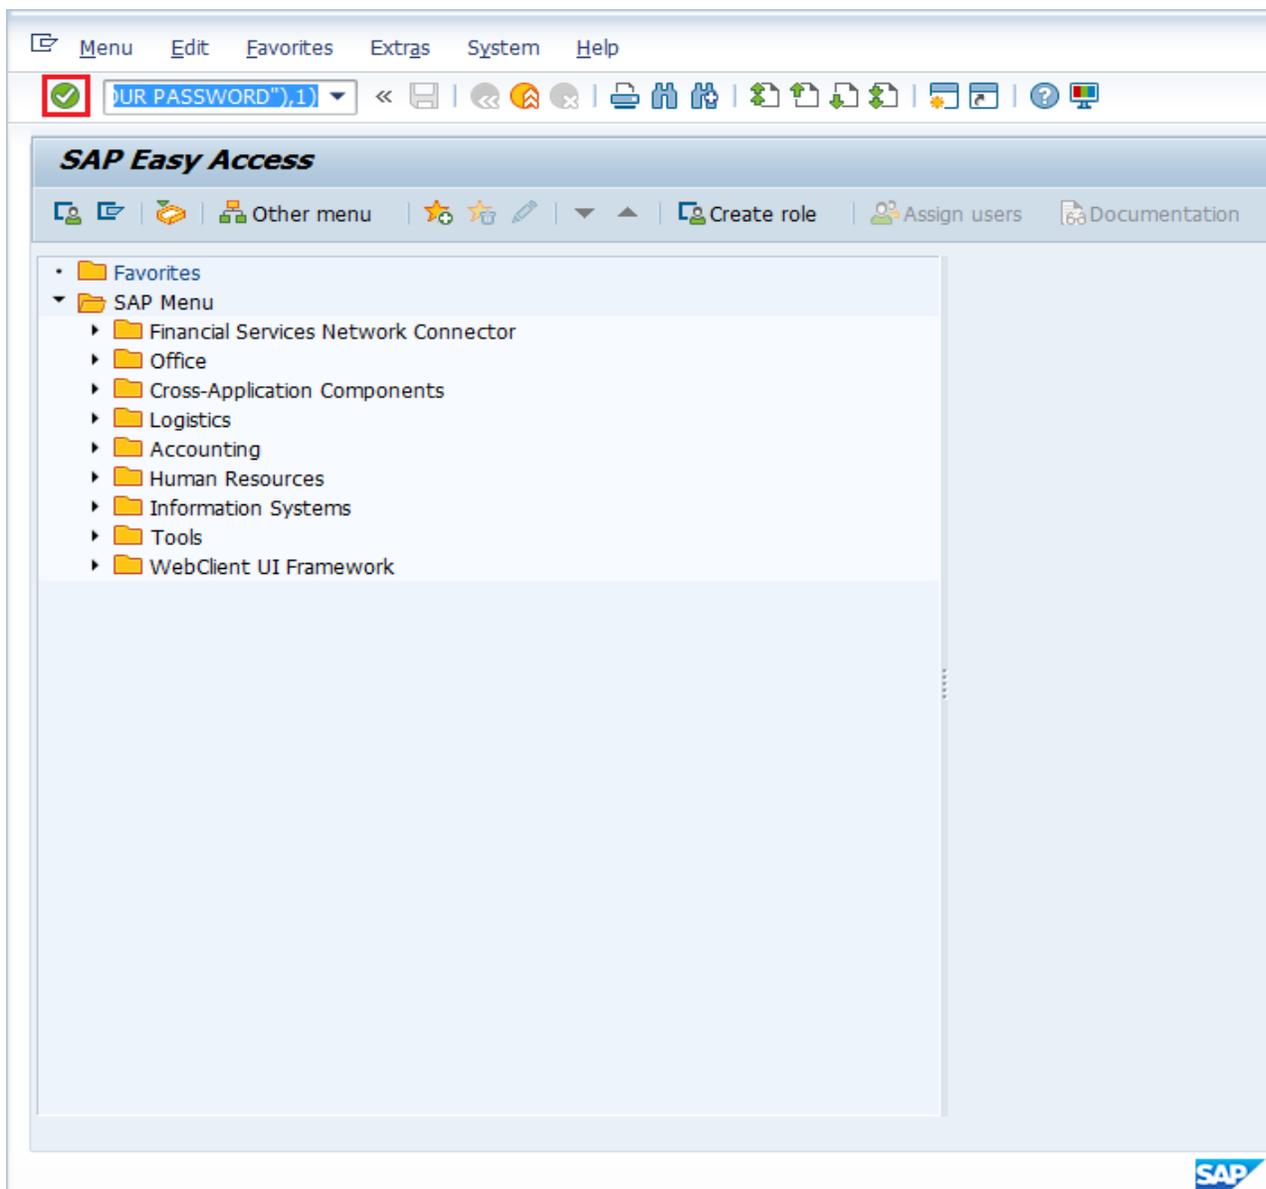

### Purpose:

Below Article would help to Encrypt RFC Password

### Please follow the Steps Below:

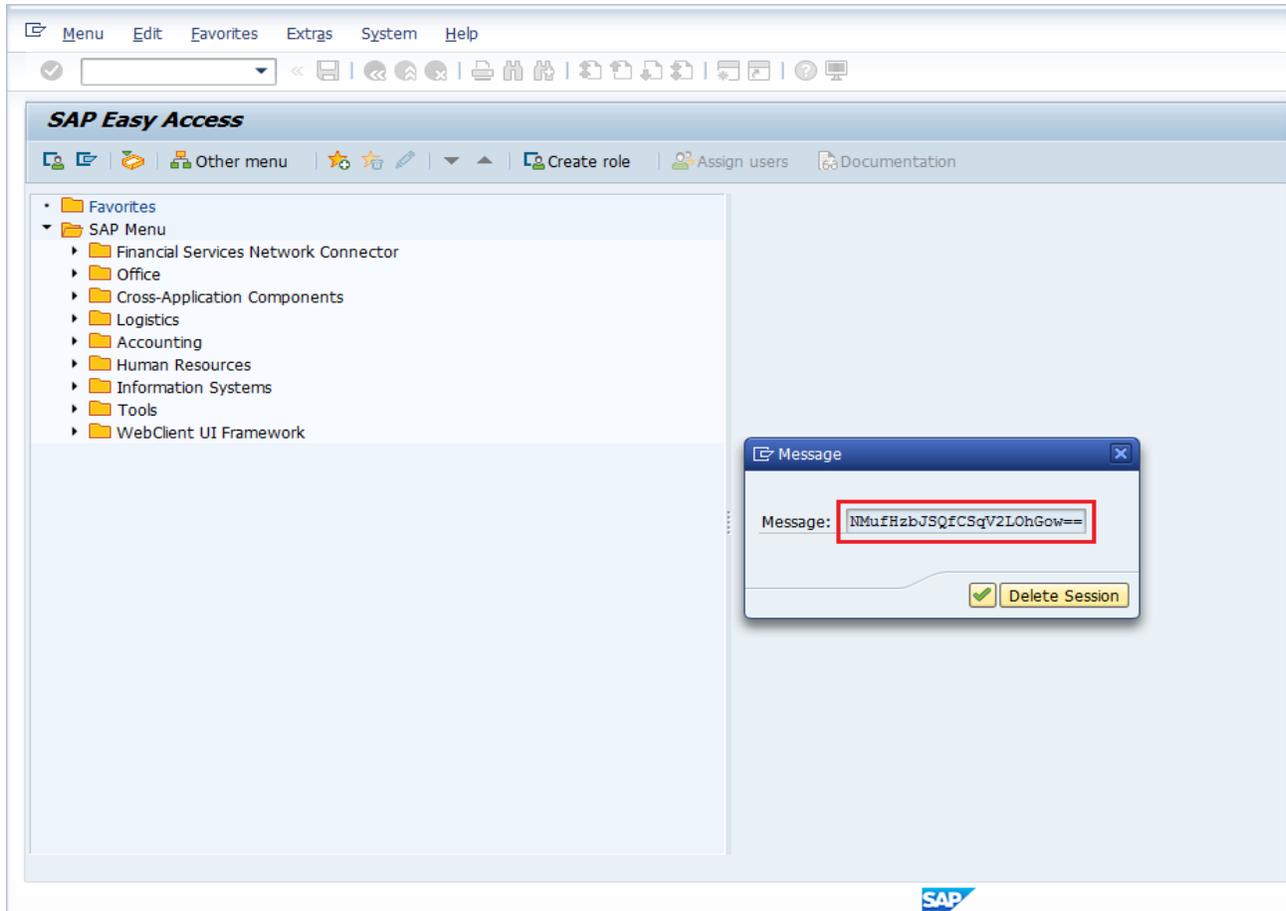

#### **Step-1:**

Enter /wsmessage(encrypt("YOUR PASSWORD"),1) on SAP Screen (in the tcode box) and hit enter or click on Enter Button as Shown.

## Step-2:

You will get the “Message” Pop-up Window, Copy the Encrypted Password which is there in the “Message:” Field.

## Step-3:

Put the Copied Encrypted Password in the “guixt.sjs” file as shown below.

```
*C:\Program Files (x86)\SAP\FrontEnd\SAPgui\guixt.sjs - Notepad++
File Edit Search View Encoding Language Settings Tools Macro Run Plugins Window ?
services guixt.sjs
1 //WS Configuration File
2
3 /* *****
4 ***** RFC Credentials
5 ***** */
6 rfcuser = "GUIXTRFC";
7 rfcpassword = "NMuFHzbJSQfCSqV2LOhGow=";
8 // replication = "yes";
9 // rfcconnect=["IFDATABASE=DEV,LANG=E,CLIENT=777,ASHOST=SAPECCDEV,SYSNR=00"];
10 // rfcdisconnect = 1;
11 // rfctimeout = 5;
12
```
