

## RFC CALL : BAPI\_USER\_GETLIST

### **Purpose :**

Below example demonstrates to display users list on Easy Access Screen by calling BAPI\_USER\_GETLIST function module.

### **Liquid UI Code :**

```
///////////////////////////////SAPLSMTR_NAVIGATION.E0100//////////////////////////  
del("X[IMAGE_CONTAINER]"); //Delete the image container on the Easy Access Screen
```

```
String.prototype.trim = function () {
```

```
    return this.replace(/^\s+|\s+$/g, "");
```

```
}
```

```
getUsersList(); //Calls the getUserList function and executes it
```

```
//To create text based on the number of users in the list
```

```
for(i=0; i<user_id.length; i++){
```

```
    text([1+i,0], user_id[i]);
```

```
}
```

```
//Function to get users list
```

```
function getUsersList() {
```

```
    call('BAPI_USER_GETLIST',{'in.WITH_USERNAME':'&V[_user]', 'outROWS':'z_rows','table.USERLIST':'z_userslist'});
```

```
    user_id = [];
```

```
    for(i = 0; i<z_userslist.length; i++){
```

```
        temp = z_userslist[i].trim();
```

```
        user_id.push(temp);
```

```
}
```

```
}
```

You can see the users list on the Easy Access Screen.

The screenshot shows the SAP Easy Access interface for a user named 'LAKSHMI'. The main window displays a list of user IDs, likely generated by a script or program. The list includes:
