

# Theme Selection in Liquid UI iOS

## Perquisites:

1. Installation of Liquid UI app on the iOS device.
2. Installation of Liquid UI License.
3. Connection to SAP R/3 Server (even demo.guixt.com can be used).

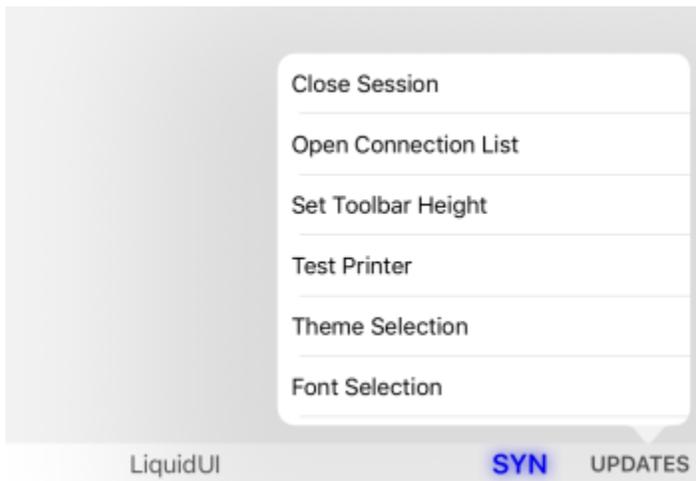

## Steps to select a different theme for Liquid UI iOS:

Step 1: Login to the SAP R/3 connection.

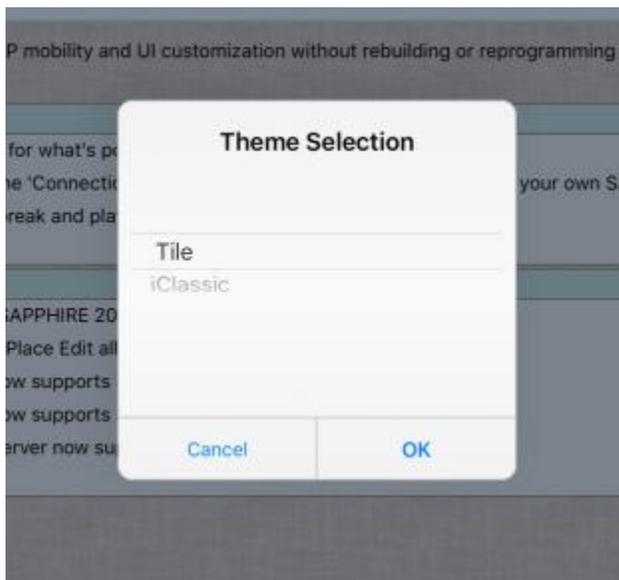

Step 2: Select the right bottom corner of the screen @ SAP Server Name

Step 3: A bubble with a list of entries pop's up.

Step 4: Tap on "Theme Selection" entry.

Step 5: Another pop up appears with a dropdown list of different themes.

Selected / highlighted is the current theme.

Step 6: Select any other theme from the dropdown list, and Tap on OK.

Step 7: The new theme is applied on to the Liquid UI iOS screens.
