

Display SAP transaction documents using Inbuilt viewer on Liquid UI Android

Purpose: To Provide the user the ability to open their SAP transaction documents/files within the Application to avoid using any third party application for the same.

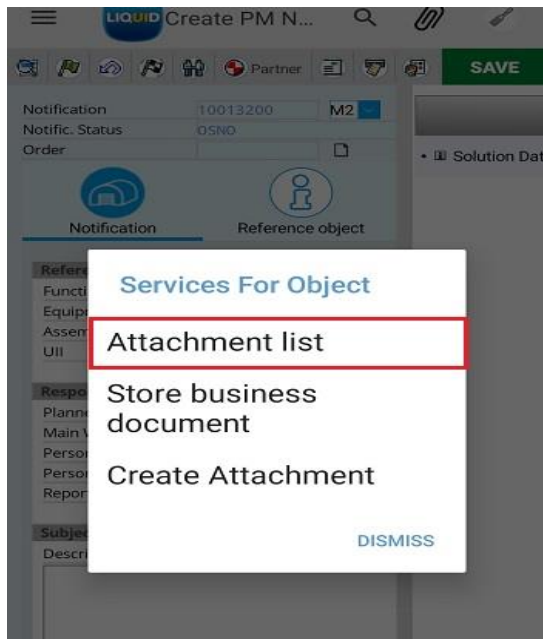

Pre-requisites: Liquid UI Android version 4.21.17.5 and above.

Steps:

1. Launch Liquid UI Android.
2. Connect to your SAP Server.
3. Navigate to IW22 transaction. Tap on SFO attachment button.

The screenshot displays the Liquid UI Android application interface for the IW22 transaction. The top bar features the 'Liquid' logo, the text 'Change PM...', a search icon, a red-bordered paperclip icon (the SFO attachment button), and an edit icon. Below the top bar is a toolbar with various icons and a green 'SAVE' button. The main form is divided into sections: 'Equipment' with 'Assembly' and 'Ull' fields; 'Responsibilities' with 'Planner group', 'Main WorkCtr', 'Person Responsi', 'Person Responsi', and 'Reported by' fields; 'Subject' with a 'Description' field; 'Malfunction data' with 'Malfunct. start' (07.04.2021) and 'Malfunct. end' (00:00:00) fields; and 'Item' with 'Object part' and 'Damage' fields. A 'Solution Data' section is partially visible on the right.

4. In “Services Object” and select “Attachment list”.

5. On Attachment list screen, select “xlsx” file and tap on the display icon.

Result:

The User able to view the xlsx file in file viewer.

The screenshot shows the 'LIQUID File Viewer' application. The interface includes a blue header bar with a back arrow, the 'LIQUID' logo, and the text 'File Viewer'. Below the header is a dark grey toolbar with icons for a list view, search, a page indicator '1 of 1', zoom in (+) and zoom out (-) buttons, and a double right arrow. The main area displays an Excel spreadsheet with two columns: 'Date' and 'Sales Order Number'. The data rows show dates from 12/08/20 to 12/10/20 and corresponding sales order numbers ranging from 22645.0 to 22650.0.
